How many carrots have Monkey and Rabbit got? Look at the numbers below and write the correct one in each box.

Now write over the numbers.

Grown-ups' notes

This worksheet is a great way to practise number recognition and counting skills. Children become aware that the numbers represent a certain number of items. Reinforce their learning by counting everything around you at home, from stairs to buttons on a coat.

- Number songs are a great way to help children learn to count. Sing songs like '1, 2, 3, 4, 5 once I caught a fish alive,' and '5 little ducks went swimming one day.'
- Count blocks as you build a tall tower together, knock it down and start all over again.
- Count body parts and use fingers to practise counting to 10.
